

Ten reasons to consider **financing your solar PV project with C-PACE:**

- 1** C-PACE provides 100 percent financing, so you can complete your project with **no money down.**
- 2** Well-designed projects are cash-flow positive—**putting money in your pocket.**
- 3** The financing is tied to the property— so there's **no personal guarantee.**
- 4** The long-term, fixed rate financing (up to 25 years) is typically **more economically attractive than other financing options.**
- 5** Open-market financing means you can **choose the best fit capital provider.**
- 6** The property owner **retains all tax incentives.**
- 7** Financing can be **combined with utility incentives.**
- 8** You can **transfer the repayment obligation to the new owner** if you sell the property.
- 9** You can **include storage batteries, roof upgrades, and other energy efficiency measures in the financing.**
- 10** You can **take advantage of solar investment tax credits and accelerated depreciation.**
